

EO+® is an innovative modular panel and desking system that works for you in a variety of ways. Create workstations, conference rooms and teaming areas with components that are easy to mix, match and reconfigure.

Panels can be freestanding or used with coordinating desking and storage components to provide varying degrees of privacy. Styles include full privacy, partial whiteboard, partially glazed and fully glazed.

Worksurfaces provide ergonomic access to computers and provide generous space for a multitude of daily tasks. Off desk accessories can be quickly and easily repositioned along the optional panel mounted rail. Electrical components are necessary for everyday use and include electrical and data receptacles that can be worksurface mounted.

EO+® is easy to use and move; its lightweight components fit together with convenience and ease. The EO+® system of office furniture adapts as fast as your needs change.

Features and Benefits

- Partially and Fully Glazed Panels are available in “Clear”, “Smoked” and “Frosted” options
- Partial Whiteboard Panels are available on one or two sides
- Primary worksurfaces are 18”, 24” or 30” deep, the optimum reach of an individual
- 3mm matching edge on all worksurfaces
- Worksurface scoops keep wires neat and out of the way
- Adapt Power/Data Module provides worksurface access to two electrical outlets and two plugs with adaptors.
- EO+’s pedestals can be worksurface-supporting or freestanding. Box drawers have one pencil tray and one plate divider. All drawers have steel ball-bearing suspensions and lock.
- Overhead Storage and Personal Towers add additional storage possibilities.
- Panel frames, legs and pedestals are available in Black and Tungsten 2.
- Accessories can attach to worksurfaces or panels using an accessory rail. Available in Black and Frosted on most models.

Partially glazed panels provide privacy and additional light

Electrical and data receptacles can be worksurface mounted

Worksurface scoops provide wire management

GENERAL INFORMATION

- Innovative Modular Panel and Desking system.
- Versatile design with economic and ergonomic advantages.
- Perfect for workstation, conference room and teaming areas.
- Simple, modular, mix-and-match components that are easy to specify and assemble.
- Worksurfaces are supported by steel pedestals, worksurface/panel supporting hardware and end panels.
- eO+'s load bearing panel frames accepts worksurfaces at 29"H in height. Off-Desk Accessory Bars are at 36" - 40"H and Open Shelves at 50"H. The top of the overhead storage cabinet can only be used on the 66"H Panel when the top of it is even with the top of the 66"H Panel.
- Islands and Spanner Islands are supported with square or tapered steel legs in conjunction with the above.
- Panels offer different degrees of privacy in a variety of styles.
- The entire eO+ panel is recyclable at the end of its life.
- All brackets and metal storage components consist of up to 30% recycled steel that can again be recycled.
- Durable epoxy powder coating used on all metal components contains no harmful VOC's or lead.
- Global laminate and seating products are in compliance with stringent emission guidelines set out by the Greenguard Environmental Institute under the standards for low emitting products and materials. www.greenguard.org
- **Level 2 Certified**

PRIVACY PANEL CONSTRUCTION

- Tackable substrate honeycomb core covered in fabric
- Panels are constructed of lightweight aluminum with a self levelling feature to maintain even height of all panels and permit fast installation and reconfiguration
- Honeycomb panel cores are made from 30% recycled card stock
- Slotted verticals provide load bearing capabilities
- Each panel comes with 2 ½" glides allowing for 2" height adjustment and two full length capture strips
- Patented "knuckle-loc" design ensures solid panel-to-panel connection
- Universal corner post (two-way, three-way, four way)

PANEL FABRICS

- Available in the following panel fabrics:
 - **Grade 2** Lola
 - **Grade 3** Anchorage, Brinx and Mariposa
 - **Grade 4** Accent
 - Momentum **Grade 5** Meander, Tracery and Universe
- **The same fabric MUST BE used on both sides of the panel.**

PANEL FRAMES

- eO+ extruded aluminum panel frames are made from remelt billets (recycled aluminum) whenever possible and can be recycled almost endlessly
- eO+'s load bearing frames accept worksurfaces at 29"H in height. Off-Desk Accessory Bars are at 36" - 40"H and Open Shelves at 50"H. The top of the overhead storage cabinet can only be used on the 66"H Panel when the top of it is even with the top of the 66"H Panel

IMPORTANT: When specifying and installing eO+ workstations with Overhead Storage Units (shelves and overheads) and/or worksurfaces, the following rules must be followed. Failure to adhere to these rules may compromise the integrity of the installation and void the warranty.

RULE #1

Panels supporting Overhead Storage Units and/or Worksurfaces must be vertically stabilized. These panels must have worksurfaces attached to the panels using any combination of the following:

- A** - Mid-Support Gables (EMSG2xxP)
- B** - End Gables (EFG2xxP)
- C** - Worksurface Supporting Pedestals with Pedestal Connecting Brackets (GWPSxxxxF/EPTPBK).
- D** - Wing Panels that are the same width as the depth of the worksurface and incorporate a set of Corner Brackets (EEWSB)

RULE #2

Panels supporting overhead storage units must have panels of equal height on either side.

RULE #3

The width of an overhead storage unit must correspond with the width of the supporting panel.

RULE #4

Wherever possible "balance" the layout by using the same size and type of overhead storage unit on both sides of the same panel. This type of layout will ensure straight panel runs.

RULE #5

48" and 60" wide overhead storage units require corner posts and wing panels on both sides of the supporting panel.

RULE #6

A run of panels without worksurfaces should be no longer than 9'-0" and must be supported with (A) Wing panels at both ends, (B) A Wing Panel at one end and a Self-Supporting Foot (EESF-1) at the other end or (C) A Wing Panel at one end and a Floor Mount (EEFM) at the other end - Not Shown.

Note: Floor Mounts **MUST BE** bolted to the floor.

PANEL FINISHES

- Lightweight, aluminum box frame finished with **Black (BLK)** and **Tungsten 2 (TU2)** durable epoxy powder coating.

GLAZED PANELS

- Allows additional light into a workstation while creating a more open office space
- Partially Glazed Panels start at 31" from the floor. Partially Glazed Panels may also start at 42" from the floor as a No Charge option by adding "**PG42**" after the model # (ex: EPPG2466-PG42)
- Fully and Partially Glazed Panels are available in the following finishes:
 - Specify "**CPG**" for Clear Plexiglass Panels
 - Specify "**SPG**" for Smoked Plexiglass Panels
 - Specify "**FPG**" for Frosted Plexiglass Panels

PARTIAL WHITEBOARD PANELS

- Panels may be ordered with whiteboards in the upper portion of the panel on either one side or both sides
- TO ORDER PARTIAL WHITEBOARD PANEL ON ONE SIDE:
First specify the panel side which faces you "INNER SIDE" and then "OUTER SIDE" of the panel. Example: EPP3666

WB	
F	F

EPP3666/WB/BX01/BX02

- TO ORDER PARTIAL WHITEBOARD PANEL ON TWO SIDES:
First specify the panel side which faces you "INNER SIDE" and then "OUTER SIDE" of the panel. Example: EPP3666

WB	WB
F	F

EPP3666/WB/BX01/WB/BX02

PANEL GROMMETS

- 3" diameter Panel Grommets allow wires and cables to pass through eO+ panels - **ADD \$79.**
- MUST SPECIFY POSITION:
 - GRMT1:** 34" above panel bottom and 4" in from the right panel edge (above worksurface)
 - GRMT2:** 26" above panel bottom and 4" in from the right panel edge (beneath worksurface)
 - GRMT3:** 8" above panel bottom and 4" in from the right panel edge
 - GRMT4:** 34" above panel bottom and 4" in from the left panel edge (above worksurface)
 - GRMT5:** 26" above panel bottom and 4" in from the left panel edge (beneath worksurface)
 - GRMT6:** 8" above panel bottom and 4" in from the left panel edge

Note:

- Panel grommets NOT available on fully glazed panels or in the GRMT1 and GRMT4 position on partially glazed panels
- When ordering grommets in partial whiteboard panels, orient the panel as shown above
- Panel grommet finish - Black (**BLK**) or Tungsten 2 (**TU2**). will coordinate with panel finish

**SPECIAL SIZE PANELS**

- Custom heights and widths are available for all panels
- For custom size pricing use the **next size up plus 10%**
- Panel heights CANNOT exceed 66"
- Panel widths CANNOT exceed 60"

WALL ACCESS PANEL

- 18" opening in the base of the panel (from 2" above the floor to 20") to allow easy access to electrical and data wall outlets. Specify "**WAP**" after the panel model # (ex: EEP3666-WAP)

Note:

- This option can also be specified for improved air flow. **ADD \$130** to the fabric panel list price
- Wall access panels are NOT available on fully glazed panels
- Wall access panels ARE available on partially glazed panels and partial whiteboard panels

TRANSACTION TOPS

- Tops are 1" thick, 45 pound density particleboard covered on both sides with thermally fused laminate.
- Sizes from 12" to 84" widths
- Available in 12" depth ONLY
- 3 mm plastic matching edge
- See page 483 for additional details

PANEL SHIPPING

- Shipped 1 per carton, unless otherwise noted
- CUBIC FEET stated reflects TOTAL cubic footage
- WEIGHT stated reflects the weight of ONE PANEL

LAMINATE FINISHES

Worksurfaces will have a matching 3mm plastic edge

Lightweight aluminum box frame construction creates superior panel rigidity. Tackable substrate honeycomb core is covered with fabric. 2½" glide allows for 2" height adjustment. Panels are of actual size, eliminating creepage. Patented "knuckle-loc" design provides solid panel-to-panel connection. No connecting posts needed for straight runs. Self levelling feature maintains even height of all panels and permits fast installation and reconfiguration. Includes two "capture strip" screen connectors. Accepts suspended shelves and accessory bar.

- Must Specify Black (**BLK**) epoxy or Tungsten 2 (**TU2**) frame finish
- Custom sizes are available for eO+ Series Panels. Next size up **ADD 10%**.

Partial Whiteboard Panel - One Side

Partial whiteboard panels available for **42", 54" and 66" h** eO+ Panels. Features a whiteboard 31" above the floor on ONE SIDE. Full fabric on the opposite side. Aluminum box frame construction with fabric covered tackable substrate. 2½" glide allows for 2" height adjustment. Includes two "capture strip" panel connectors.

- **54" and 66" high Panels Only:**
Optional partial whiteboard starting at 42" above the panel bottom is available at No Charge (both sides MUST BE the same height). Specify **(PG42)** to Panel Code (ex: EPP3666-PG42).
- Must Specify Black **(BLK)** epoxy or Tungsten 2 **(TU2)** frame finish
- Custom sizes are available for eO+ Series Panels. Next size up **ADD 10%**.

Partially glazed panels available for **42", 54" and 66" h** eO+ Panels. Features a Clear, Smoked or Frosted Plexiglass window 31" above the floor. Aluminum box frame construction with fabric covered tackable substrate. 2½" glide allows for 2" height adjustment. Includes two "capture strip" panel connectors.

- **54" and 66" high Panels Only:**
Optional partial plexiglass window starting at 42" above the panel bottom is available at No Charge (both sides MUST BE the same height). Specify **(PG42)** to Panel Code (ex: EEPPG3666-PG42).
- Must Specify Black **(BLK)** epoxy or Tungsten 2 **(TU2)** frame finish
- Specify Clear **(CPG)**, Smoked **(SPG)** or Frosted **(FPG)** plexiglass
- Custom sizes are available for eO+ Series Panels. Next size up **ADD 10%**.

WORKSURFACES	MODEL#	DIMENSIONS	FREIGHT CLASS	WT/LBS.	CUBIC FT.	LIST PRICE
D x W x H						

WORKSURFACES

- Tops are 1" thick, made of 45 lb. density particle board (from 100% recycled wood chips), covered on both sides with high performance, thermally fused laminate.
- Preferred matching edge.
- Available in 18", 24" or 30" deep worksurfaces.
- All worksurfaces have threaded inserts for metal to metal connection of support hardware to connect to panels.
- Power and communication cables are routed through cable scoops at the back of the worksurfaces.
- There is a 3/8" space between the worksurface and panel to allow wires to pass through.
- Straight and Transitional worksurfaces above 54" have two scoops. All other worksurfaces have one scoop, unless otherwise noted.
- All connection hardware must be ordered separately.
- Custom widths and depths are available for all worksurfaces. For custom size pricing use the **next size up plus 10%**.
 - More complex custom requests require a quotation. Please contact Customer Care.
 - Custom orders must indicate the Custom Quote Number and List Price. There can be no changes to the quote. Changes necessitate a new quote.

WORKSURFACE SUPPORTS

- Worksurfaces supported by supporting pedestals and supporting panel hardware.
- Supporting Pedestals are available in Black (**BLK**) or Tungsten 2 (**TU2**). Please Specify.

LEG CONSTRUCTION

- 2" Square or Tapered steel leg (2" diameter) with a custom designed leveler that adjusts up to 1½". Leveling is made easy by turning the outside of the leveler by hand. The heavy duty leveling bolt is hidden by the shroud of the leveler.
- Legs are available in Black (**BLK**) or Tungsten 2 (**TU2**). Please Specify.
- Levelers are available in Black (**BLK**) Only.

Used to connect two back-to-back units of the same depth with a panel. Cable scoop is on the straight edge. Includes two 2" square monoposts. Shipped RTA (ready to assemble). **Linking installation only.**

- Post is shipped in separate carton. MUST Specify Black (**BLK**) or Tungsten 2 (**TU2**) finish.

TRANSACTION TOPS - NOTES

- Tops are 1" thick, 45 lb. density particleboard covered on both sides with thermally fused laminate.
- Available in 12" depth only.
- For a Custom Width, ex: ETT1232, take the next larger size - ETT1236 plus 10%.
- Connecting hardware not included.
- "L" Transaction Top (ELCTT90) covers 12" of a panel.
- Preferred matching edge on all sides

Two Way Connector Transaction Top (ELCTT90) - Use to link Transaction Tops together at 90°.

STORAGE NOTES

PEDESTALS

D x W x H

- Worksurface Supporting Pedestals are 27.62" high and can directly support worksurfaces by screwing through the top of the pedestal and into the underside of the worksurface. A Pedestal Connecting Bracket secures the pedestal to a panel (not included).
- Freestanding Pedestals are 27.12"H and can slide under a panel attached worksurface.
- Cannot be converted to mobile pedestals in the field.
- Lock included.
- Steel construction for durability.
- G Series Pedestals have a looped full pull drawer front while E Series Pedestals incorporate Soft touch Hytrel™ pull handles.
- One pencil tray and plate divider included in the top box drawer.
- Leveling glides provide 1" height adjustment.
- Mobile pedestal NOT for use to support worksurfaces.
- Worksurface tops are available for pedestals when they are freestanding.
- Box drawers have ¾ extension steel ball bearing suspension.
- File drawers have full steel ball bearing suspension.
- Side rails accommodate letter hanging folders.
- File bars included for legal size hanging file folders for 19", 23"/24" and 29"/30".

LOCKS

- Pedestals - All drawers are locking (standard position on the front, top right).
- Overheads with Retracting Doors - Can be ordered for field installation only (model **ESLOCK**). **ADD \$28**.
- All keying is random.
- All components within a workstation or a private office can be keyed alike or keyed differently at No Charge. Delivery times will vary.
- Quantity 1 - 150 Workstations - Standard Delivery Time.
- Quantity 151+ Workstations - Additional Lead Time (approx. 3 weeks).
- **Note:** When ordering 'specified' keying, tag each component of the workstation or office with a lock number between 400-550. Your shipping documentation and invoicing will confirm both the "specified" lock number and any other tagging instructions for each component.

PANEL ATTACHED STORAGE

- All panel attached storage is constructed of steel for durability.
- Overhead Storage Units are NOT standard with locks.
- Interior dimensions of the Overhead Storage Unit are 11 ¾"D and 12"H. The shelf is 12"D and has a back lip to protect the panel fabric.

PERSONAL STORAGE TOWERS

- Personal storage towers have looped full pull fronts to match the G Series pedestals.
- Locks are included.
- Leveling glides provide ½" height adjustment.

Note:

- Custom widths and depths are NOT available for Pedestals, Panel Attached Storage and Personal Towers.
- Matching 9100/9300P series lateral file and storage options. See the **Filing and Storage** section, beginning on page 680.

OPTIONS

- Desk Mounted Accessories include Keyboard Corner Plate and Pencil Drawer.
- Panel-Mounted Accessories include Coat Hook, Self-Supporting Foot and Accessory Rail.
- Accessory Rail supports additional storage and organizational accessories
- For keyboard trays, see **Productivity Solutions by Global**, beginning on page 500.

SHIPPING

- Shipped R.T.A. (Ready To Assemble).
- 1 per carton, unless otherwise noted.

ELECTRICAL COMPONENTS

- Desk mounted accessories include Adapt power/data module (model # **EUEDM**), mini-adapt power module (model # **EUTEM**) and mini-adapt data module (model # **EUTDM**).
- Panel mount power bar includes four receptacles, two data jack adapters, two cord management channels, sliding bracket and bezel tree.
