Our desire was to develop an environment for collaborative teamwork which would facilitate connection, or bridging of people and ideas. A set of components which would even serve as a catalyst, inviting team members out of their cocooned comfort zones and encouraging them to engage, co-create. With Bridges II you can develop an environment of collaborative teamwork through workspace configuration that enhances line communication and bridges people with a spectrum of ideas and interfaces. Bridges II features a set of components that facilitate communication and streamline interaction through product that efficiently adapts and creatively configures. The product focuses on advancing engagement and collaborative creation through quick adaptations necessary to meet the needs of a fast paced and ever changing work environment. With flexible building components, Bridges II fits numerous applications, from boardrooms to multi-person workstations. It is easy to customize and reconfigure to fit specific requirements.

GENERAL INFORMATION**Flexible Building components**

- Single leg tables (freestanding or mobile)
- Training Rooms
- Boardrooms
- Libraries
- 1 person general and private office
- 2 person workstation
- 3 person workstation
- 6+ person workstation
- Storage spine-based workstation

Easy to customize and reconfigure to fit specific requirements. From the facility manager's perspective, all workstations can be standardized to form a linear worksurface and power/data services, and their respective function or purpose can be governed by the type, quantity and placement of adjacent components like dividers, storage cabinets, shelves and accessories. These adjacent components can be easily reconfigured with minimal down time - without having to invite electrical and IT crews.

Compatible with various environments

- Clean, simple, elegant design language, with finishes suggesting comfortable, even domestic flavor. Understated to designer combinations, like anodized aluminum and white, give a hint of subtle sophistication.

Choice of **two functionally and visually different leg** supports

- Casters or levelers
- Height adjustable round legs
- Fixed height rectangular legs
- Optional anodized aluminum finish (Rectangular legs only). Refer to individual models for upcharge.

Various **power/data delivery** levels to choose from

- Wire basket to organize cable access under worksurfaces and storage units
- Vertical cable manager integrated into rectangular leg
- Worksurface edge-mounted power/data units (easy to reconfigure, plug into wall/floor outlets), or power troughs
- Single-sided and double-sided below worksurface power/data trough (desktop/floor standing computers and office equipment)
- Worksurface access door (access to below worksurface power outlets and data terminals)
- Above worksurface power/data trough provides immediate access for laptops, tablets and phones
- Storage integrated power/data unit
- Horizontal cable management under storage units with optional wire basket

Interconnected storage units can form a spine to create space division, storage, cable management and worksurface support. Storage leg can be configured to act as a ganging bracket.
